

How to Send TalkingBadge Messages

1. Please go to URL: <http://130.226.142.182/TalkingBadgeDemo/Login>, or scan the QR-code

You can scan this QR-code to access the "TalkingBadge" homepage

2. Create a new account

For new users, you need to create a new account.

If your mobile phone use "Android platform", e.g. "Android 4.0" or later versions then you can download a free "TalkingBadge" application from this link

Registration and Installation

[Create your account](#)

[Download the TalkingBadge Application for Android \(4.0\)](#)

[Find the TalkingBadge Application in Google Play](#)

You can also install the "TalkingBadge" application from Google Play

3. After logging in, select users or locations

Select Users

Choose "Select Users", you can send message to one or more selected users

Select Places

Select one or more places that you want to send message to :

Select All	Position
<input type="checkbox"/>	Aud 1
<input type="checkbox"/>	Aud 2
<input type="checkbox"/>	Scroll bar
<input type="checkbox"/>	Analog
<input type="checkbox"/>	Floor 2

Choose "Select Places", you can send message to the selected location, all devices within the range will receive the message.

4. Type and send your message

Insert your message, choose the language, then click "Send".

Enter your message here (no more than 140 characters)

Language: English (UK)

If you would like to hear your message before you send it then just copy it from the textfield and paste it into this demo: <http://www.ispeech.org/text.to.speech>
Remember to choose the right language. You will only hear the first 90 characters of your message, though.
